

# Airships new generation

key milestones of the project  
in 2025

# **News** on the development of the project

**AERONOVA**

Development of the preliminary design for the **NOVA-01** airship and the design of the **NOVA-2** gondola, in collaboration with the Moscow Aviation Institute

January

# Development of the concept for the **NOVA-35** airship

March

# Launch of a **stratospheric long-duration drifting probe** in the city of **Kirzhach**

March

**Process development for envelope manufacturing, high-altitude tests and trials**

April

Ground testing, completion of gondola assembly, and preparations for the first launch of **NOVA-01**

May

# First test rollout of the airship **NOVA-01**

May

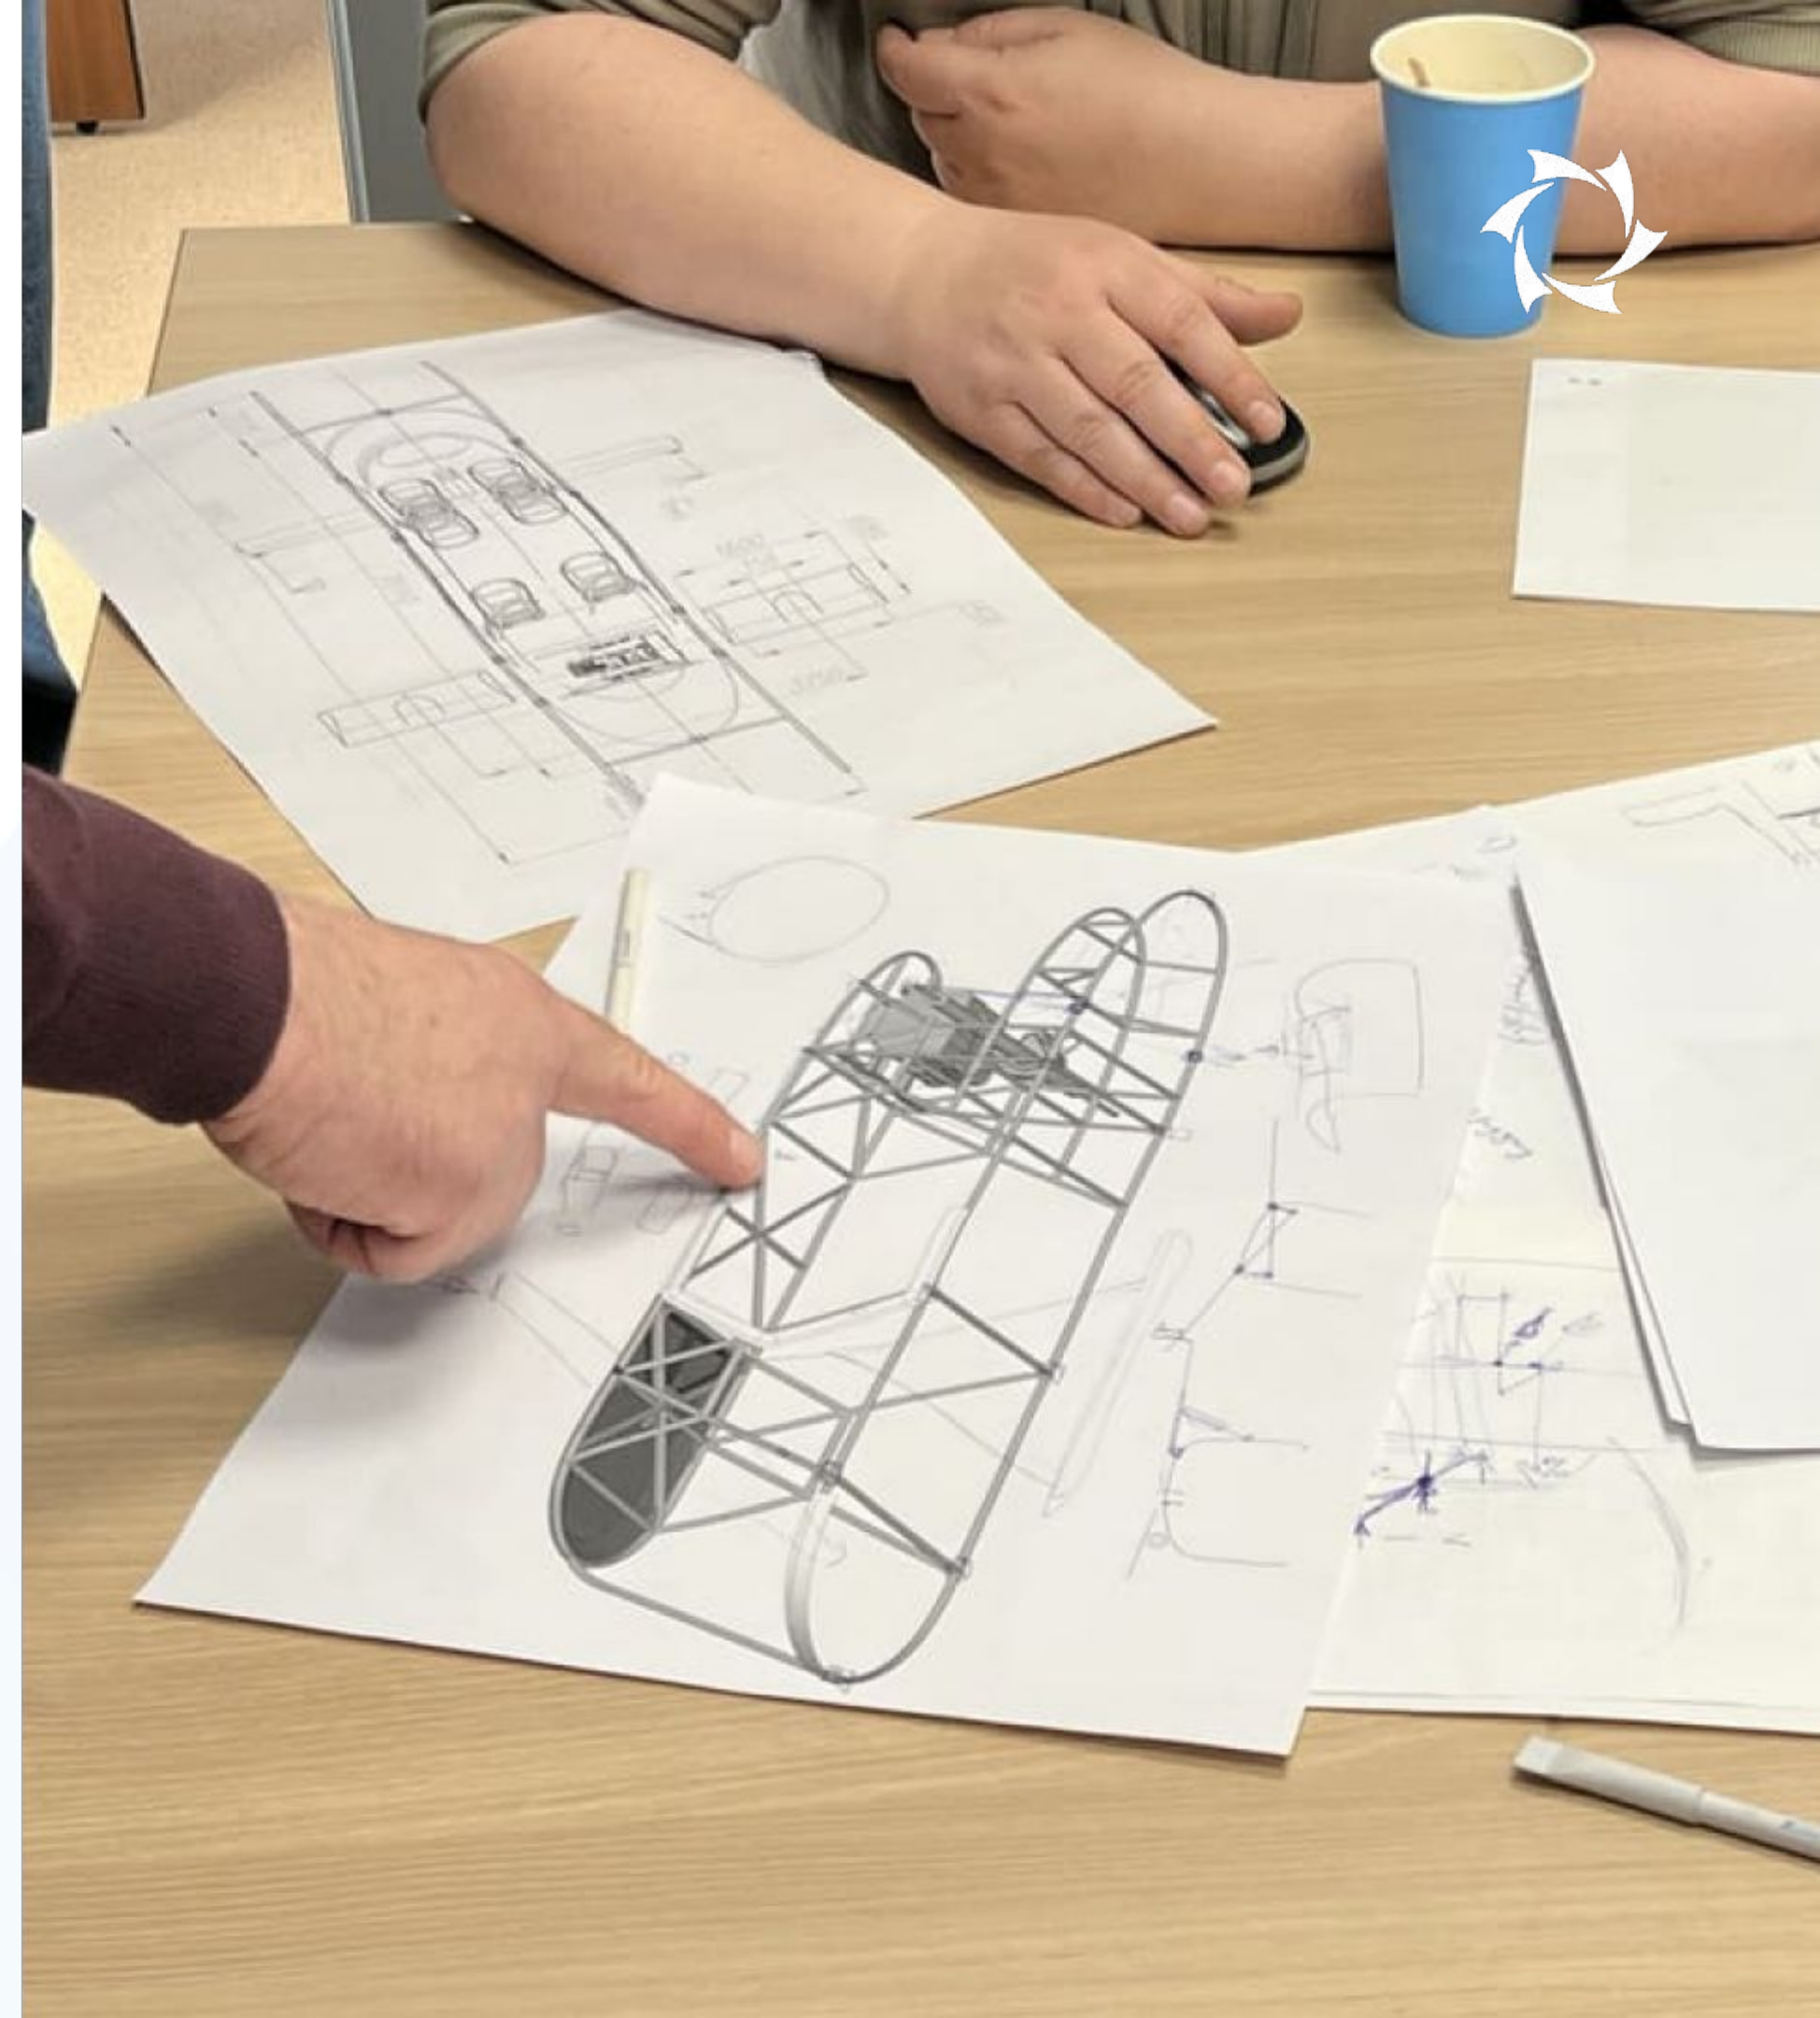

# Uncrewed airship NOVA-01 successfully completed flight tests

May

**Start of assembly of the  
engineering mock-up of  
the gondola for the  
NOVA-2 airship**

June

**Signed cooperation  
agreement with Bauman  
Moscow State Technical  
University (BMSTU)**

June

**Airship NOVA-01:**  
manual control and  
autopilot tests, low  
mooring point and  
weathervaning system  
tests

July

An advanced training course on **T-FLEX PLM** was held at “AERONOVA”

August

Another launch of a **long-duration drifting stratospheric probe** took place jointly with Bauman Moscow State Technical University (BMSTU)

August

The first cycle of **testing of the NOVA-01** has been completed

September

Assembly of the **AEROLET**  
has been completed

September

Investors and project partners attended **the launch of NOVA-01** in Voskresensk
